

PAINTBALL ITINERARY

Your Paintball Day itinerary

9:00am...

Players will start to arrive at the car park where they will be met by a member of staff who will escort them down to the base camp for recruitment. Just before entering the base camp we will get them signed in and kitted up for their day's paintballing experience. Once all players are checked in and kitted up we will get everyone briefed before their first game

9.45 to 10:15...

We will get the day started first off with a detailed Safety and Operations brief explaining how the day will run, what equipment you will be using and how to use it in a safe manner. We will also cover the rules that the players are required to follow throughout the day.

10:15 to 12.45...

During this morning session we average around 4 to 6 games before lunch.

We will exit the base camp and head out to the battle fields for the first game. Each game can last up to 10 minutes but it all depends on how fast the fire fights are over. We will stay on 1 field but play 2 games per set, by this we mean we will play the same game twice but switch ends for fairness. Each game map we play will be different to the last with different objectives and intel to obtain. After playing each field from either end we head on back to the base camp to give you a chance to grab a drink, run through your war stories and grab more ammo if you need some. Within all our games we do timed and controlled respawns, which allow you to come back in to the games at set times which means less standing around and more game time for you!!

12.45 to 13:30..

Lunch time!!! It's now time for everyone to relax and tuck in to a personal Pupa Johns pizza as well as a drink which is included for all full day players. At this time we will also take squad pictures for every group which will be posted up on Facebook and will give you a chance to win our war face of the month competition. At the end of each month the GOPB staff will pick out the funniest/scariest faces to be voted on by our Facebook users, so why not check us out at and get practising!

13:30 till 15:30pm...

After lunch is done and you're all full up we will hit the battlegrounds again playing around another 4 games, again playing different game maps. Once the final game is done we will take you back to the base camp and allow you to get de kitted. We then get everyone back around the stage for your end of day debrief where we announce the winners and the losers, and give out a few treats!
